

## COMPANY DESCRIPTION (OASIS):

Bevilacqua Research Corporation (BRC) is a small service-disabled veteran-owned business (SDVOB), located in Huntsville, Alabama. Established in 1992 we have completed many complex DOD-related contracts on time and within budget and are well known throughout the Department of Defense as a top-quality, high-technology company. BRC maintains physical office locations in Huntsville, Alabama, Ft Walton Beach, Florida, and Vicksburg, Mississippi with employees stationed onsite with customers in 11 other states to include Virginia, Florida, Missouri, California, Alaska, Hawaii, Nevada, Ohio, Maryland, Connecticut and New Mexico.

BRC is best known for its work for federal and state agencies in the areas of Test & Evaluation (T&E), Intelligence, Reconnaissance and Surveillance (ISR), Services, and Intelligence/CYBER. Our experience spans all military services, NASA and a wealth of Other Defense agencies (ODA).

As an OASIS prime contractor BRC brings a wealth of experience to bear in the Pool and Pool 3 contract areas of engineering services and engineering for military aerospace equipment and weapons systems. Some areas where BRC brings specific expertise include:

- Artificial Intelligence / Cognitive Reasoning
- Camouflage, Concealment & Deception
- Intelligence, Counter-Narcotics, Anti-Terrorism
- Battle Damage Assessment
- Modeling & Simulation / Software Development
- Human Behavioral Modeling / Decision Modeling
- Algorithm Development / Physics
- Test & Evaluation (T&E)
- Joint Test & Evaluation (JT&E)
- C4I
- Threat Systems
- Oracle Database
- ESRI GIS Software
- Processing, Exploitation and Dissemination (PED) systems
- Civil and Structural Engineering

Using our corporate-wide ISO 9001 processes, BRC offers customers a proven team that is motivated to bring the best low-risk solutions to its customers.
